ATTENTION

TO OUR BULB CUSTOMERS

OF 1953

Once again, I present a list of the most popular gladiolus varieties. I wish to thank the many customers who have favored us with orders in past seasons. And I would like to invite new friends to send us a trial order this season. It will be a pleasure to serve you.

Due to high printing costs, our catalog is not as elaborate as usual, but the quality of our bulbs is the best.

Sincerely,

Lewis T. Lowe

TERMS FOR ORDERING

We require cash with all orders

OR

25 % down payment with balance C. O. D.

EXTRA BULBS FOR RETAIL CASH ORDERS

\$5.00 to \$15.00—10% in bulbs; over \$15.00—20% in bulbs of our choice. However, if you will send a list of varieties you would like as extras, will try to give you your choice as far as stock permits. If we send our choice, you will get a greater value in bulbs of our best varieties. These will not include any '52 introductions or those marked "No Discount" or any special collections which we may list. We give generous overcount on all orders, wholesale and retail.

The buyer and seller agree that the seller gives no warranty, express or implied, as to the productiveness of the stock hereby offered. It is further agreed that if the buyer does not enter a complaint in writing immediately upon receipt of the stock, it constitutes a definite acceptance by the buyer. All growing stock is offered by the seller subject to crop. The seller will not be responsible for anything of any nature beyond his control.

BUSINESS TERMS

Minimum orders \$2.00 Retail orders are prepaid. Quantity orders F.O.B. Johnson City, N. Y. Quantity orders shipped via Express, unless otherwise notified. If you do not live where you have Express Delivery service, please notify us at time of order and advise how to ship. Kindly send either money orders or checks for payment—no stamps or cash, please. Do not ask us to split a unit as quoted in the price list. Order as many units as desired. Canadian orders must be accompanied by express permit for F.O.B. orders.

ACKNOWLEDGEMENT OF ORDERS

Your order will be acknowledged as soon as received in our office. Bulbs will be shipped as near to date requested as it is possible to get them out. The past few winters, the weather here has been mild enough to enable us to ship bulbs practically all winter. If you live where the climate is unfavorable for shipping during our winter months, kindly notify us at time of order. Orders can be shipped any time required after Jan. 1st.

F.O.B. ITEMS

If your order contains both F.O.B. and retail items, we will ship them together in one package, F.O.B. but will give you enough overcount and extras to more than offset the carrying charge on the retail items. If you prefer the two classes shipped separately, please mark order blank accordingly.

ORDER BULBS EARLY

Send in your bulb orders now, to avoid disappointments later in the season. Stocks of some varieties are limited, so make your choice now while we have most sizes in all varieties listed. Orders will be filled in order of date filed in our office. No substitutions made on your order without your permission. Many times we have the variety wanted, but are out of the particular size mentioned in your order. If you will allow us to substitute the same value in a different size, please advise on order. This will save much correspondence and be a big help to us in filling your order. If blooming size bulbs are ordered and we cannot supply that particular size, will fill order with blooming size bulbs, not with small bulbs or bulblets, unless asked to do so. If you allow us to substitute another variety in the event we are sold out on the one ordered, you will receive a greater value than the original order. Full cultural directions will accompany every order. Please PRINT your name and address very plainly on order to avoid delays and errors in shipping.

BULB SIZES

Large size measure $1\frac{1}{4}$ " and up. Medium size $\frac{3}{4}$ " to $1\frac{1}{4}$ ", small size $\frac{1}{4}$ " to $\frac{3}{4}$ ". Bulblets screened over 6 to inch mesh, washed and measured in dry measurements which are approximately 15% more than liquid measure.

CLASSIFICATION AND VARIETY CODE

After the variety name you will find a name in parenthesis—this will be the originator's name. At the right of this you will find two sets of numbers—such as: 366-75. The first in the set of number designates that the bloom is in the 300 class for size, the last two digits—66 denotes the color class accordance to the NAGC Classification list. The last two numbers after the dash—such as 75, means that is the approximate number of days it should take for a large bulb of that variety to bloom after planting. This varies in different climates and with weather conditions, etc. Where prices are listed as L, M, and S and BLTS, this means Large, Medium and Small bulbs and BULBLETS. All bulbs New York State Inspected, Certificate No. 917. We guarantee our bulbs to be healthy and true to name.
